AWARD JUSTIFICATION

Paper converters who make the types of continuous feed computer papers required on this contract are extremely limited. Those who can also meet the 30%pc waste requirement are even more difficult to find due to the fact that many of the companies are no longer in business. Ris Paper Co. has used the same supplier for the past 5 years and has been the only bidder who is able to supply all of the forms required on this contract. Copies of the last 4 RFB results are attached as back up.
